

## Resolutions – 2011

Whereas, agriculture is North Dakota's number one industry which generates more tax revenue than any other, and

Whereas, 80% of this revenue comes from crops, and

Whereas, good seed is the Foundation of crop agriculture, and

Whereas, the seed conditioning facilities at our North Dakota Research Extension Centers are no longer capable of properly handling current commodities and fragile crops, and

Whereas good high quality seed provides an immediate 200 to 1 return on investment,

Therefore be it resolved, the North Dakota House and Senate fund the seed conditioning plants included in the SBARE approved capital improvement list in the 2011 legislative session.

Resolution unanimously passed.
