

Other Oat varieties

released by the North Dakota
Agricultural Experiment Station:

Newburg – (2011). Excellent yield potential, average test weight, and good resistance to stem rust.

Rockford – (2009). Exceptional yield potential. Excellent test weight. Very good lodging resistance. Good protection against stem rust.

Souris – (2006). White-hulled high yielding variety with excellent test weight.

HiFi – (2001). High yielding, disease resistant with high Beta-glucan concentration.

Plant Quality Certified Seed

Certified seed is field inspected and lab analyzed to help ensure variety identity, germination, and purity. Contact your local seed producer or dealer for quality certified seed.

Seed producers or dealers can be found in the North Dakota Field Inspected Seeds Directory. The directory is available from the North Dakota State Seed Department (NDSSD), an NDSU Extension Service agent, or under the field seeds program of the NDSSD website.

www.ndseed.com

Varieties protected under PVP with Title V option can only be sold as a certified class of seed. **It is the responsibility of the buyer and/or seller to confirm the PVP status of a specific crop variety prior to buying or selling the variety.** PVP status information can be obtained from the NDSSD.

AGRICULTURE

Jury Oat

www.ndcropimprovement.org

Jury Oat

Jury oat was developed by the NDSU oat breeding project and released by the Agricultural Experiment Station in the spring of 2012.

Jury has high yield potential and good test weight. It outperforms Newburg in test weight, groat percentage, and dehulling efficiency. It produces average groat b-glucan concentration.

Jury expresses moderate tolerance to Barley Yellow Dwarf Virus. In addition, it has stem rust resistance to race NA67 (TJJ).

Jury is a high milling quality grain, consistently producing improved milling quality grain relative to Newburg. Lodging resistance is not equivalent to Rockford and Souris.

To help ensure genetic purity, Jury oat will be protected under PVPA. A research fee per bushel will apply to all sales of Certified and Quality Assured Jury Oat Seed. Jury oat will be marketed through the North Dakota Crop Improvement and Seed Association.

Jury General Characteristics

- High yield potential
- High milling quality grain
- Stem rust resistance
